

Teachers & Parents

Set Up For Success!

1. This is NOT business as usual!
2. Everyone has to be flexible.
3. Teachers MUST understand the family's situation and support the family in order to teach the child.
4. Parents are NOT teachers.
5. Parents are there to support their children's learning, not to teach them.
6. Teachers are the instructors.
7. Find out how to best communicate with one another. Text, email, phone? Use parent's preferred method of communication.
8. Clearly set a plan together and stick to it.
9. Start SMALL!
10. If the plan is not working, talk about it and change it!
11. Discuss how the child is going to be reinforced for doing what needs to be done.
12. Be realistic.

Remember: Success brings motivation and motivation brings success!

(for everyone, not just kids)
